

Washington Elementary
Science & Invention Fair

When? May (TBA) 2012
Where? Washington School
Who? Students who wish to participate

All work is to be done at home. Parents may supervise and direct, but should not do the project for the student. This project is voluntary enrichment and will not be addressed in the classroom. Each participant will receive a packet of specific instructions to follow. This is a noncompetitive and non-graded event.

Parents/ students are responsible for delivering, and setting up the project between 7:15-8:00 AM on the date of the fair. The display must also be dismantled and taken from our library by 3:00 PM that same day.

Additional information on exactly how to proceed with the science or invention projects will be sent home with those that desire to participate. Links can be found on Mrs. Falsarella's web page under "other areas of instruction" on Washington's Web Site.

If you and your child would like to participate and commit to follow all directions, please complete the slip below and return it to school by April 28. A packet of directions is available and will be sent home with your student if requested. They are the same as previous years.

Sincerely,
Mrs. Carell Falsarella, GRC

Cut and return this slip. KEEP the above information. Thanks!

I have read the information and would like to participate.
